our HISTORY

It all began in Apt, in the heart of Provence, in 1973. When Jean-Paul Blachère illuminated his first village, the smiles on the residents' faces were his confirmation that light has a unique magical power.

He then turned this experience into a profession, a passion and know-how that he passes on with love and respect for tradition.

We have now grown, delivering our decorations in over 80 countries, supported by our 600 members of staff in France and our 28 subsidiaries worldwide. We are proud to illuminate 70% of French districts with over 5,000 inhabitants and more than 1,000 towns and cities and 500 shopping centres worldwide.

Above all, we strive to do our job with the same passion as on the very first day.

The richness of our company comes from the experience gained through discussions, listening and the creative solutions provided for our customers.

When it comes to illuminations in Sweden, the United States, France or Mexico, the expectations are often different. The adaptability and professionalism of our local teams therefore ensure that we are able to meet the needs of each city and the culture of each country.

The ultimate aim, whatever the location around the globe, is to arouse emotions with our illuminations…

- **53 YEARS** OF HISTORY AND HERITAGE
- **1000 TOWNS ILLUMINATED** IN OVER 80 COUNTRIES
- **28 SUBSIDIARIES**

Blachere KNOW-HOW

For us, creation is key: it starts with a sketch, a drawing by hand, an idea, a dream… then our designers bring it to life in the form of light.

We are more than just manufacturers; we are passionate creatives with a single mission: to enthral the world by telling beautiful stories through fairytale designs, innovative decorations and magical luminous settings.

We are inspired by all that surrounds us, and by anything that could stir an emotion… Being creative is not mutually exclusive with professional expertise: this philosophy keeps us one step ahead and sets us apart from the crowd.
Thanks to our innovations, we are able to strike the right balance between age-old know-how and industrialisation.

This is demonstrated by the fact that we are the only company in our market to have received the **EPV living heritage company label.**

This distinction is awarded to companies with exceptional know-how, combining tradition and innovation.

From decorative ironwork to the most painstaking wiring, more than 7,000 made-to measure decorations take shape in our workshops in France and abroad each year: the "Haute Couture" of illuminations. In parallel, standard decorations from our summer and winter "Ready-to-wear" collections are printed using eco-friendly materials thanks to our fleet of twelve large-scale 3D printers in France and elsewhere.

Although our expertise was born in France over 50 years ago, we are delighted to now have five production sites in Europe, the Middle East and America, which allow us to deliver to countries around the world via local supply chains and to contend with the economic demands of the market.

- **15 000 DECORATIONS CRAFTED** EACH YEAR
- **5 PRODUCTION SITES** AROUND THE WORLD
- **500 PEOPLE IN OUR WORKSHOPS**

our dna, INNOVATION

Innovation informs every dimension of Blachere Illumination, from materials and manufacturing to light itself.

Our research and development efforts place eco-friendly innovation at the forefront of our response to evolving environmental challenges.

Over twenty years ago, we led the way in rolling out low-energy LED technology across our entire range.

Robotic 3D printing has enabled the in-house production of our eco-friendly materials – Bioprint, Recyprint, and Flexiprint – for over a decade. Our manufacturing processes are fully patented. This shift has led to a substantial reduction in our carbon footprint, driven by a marked decrease in the use of aluminium across our decorations.

Our innovations have enabled us to strike the right balance between traditional craftsmanship and industrial scale.

- **1987:** LIGHT WIRE PIONEERS
- **2002:** WIDESPREAD ADOPTION OF LED TECHNOLOGY
- **2016:** BIOPRINT INNOVATION
- **2021:** RECYPRINT INNOVATION
- **2024:** FLEXIPRINT INNOVATION
- **2025: OUR FIRST MADE IN EUROPE STRING LIGHT**

SPARKLIGHT® EUROPA

BY BLACHERE ILLUMINATION®

In 2025, a new challenge took shape: producing a high-quality string light at our Apt workshops in France, all without compromising our competitiveness. Full details on page 168.

BIOPRINT

Bioprint is a bio-based material derived from GMO-free sugarcane, transformed into dehydrated bioethanol under the supervision of a French laboratory. Bioprint is recyclable at end of life and remains biodegradable should it enter the natural environment. Biodegradation refers to the natural decomposition of organic matter with no adverse impact on the environment.

- **DERIVED FROM SUGARCANE**
- **100% BIODEGRADABLE AND RECYCLABLE**

RECYPRINT

Six hundred billion bottles are produced each year, many of which end up in our oceans. We made the decision to transform this waste into luminous decorative installations. PET bottles collected through recycling schemes are processed and then fed into our 3D printers to create decorative installations in a wide range of colours. To date, over nine million bottles have been given a second life as decorative installations.

- **MADE FROM RECYCLED PLASTIC BOTTLES**
- **100% RECYCLABLE**

FLEXIPRINT

Flexiprint is an innovative, flexible, and recyclable material made from industrial production waste, redefining the finishing of 3D installations with a distinctive and contemporary aesthetic.

- **MADE FROM RECYCLED PLASTIC**
- **100% RECYCLABLE**

our commitment to THE ENVIRONMENT

Illumination is only the starting point for us. Our commitment is to a beautiful, brighter, more responsible future.

Founded in 1973 in the midst of the oil crisis, the company has never ceased to innovate in order to respond creatively to new environmental challenges.

From the early adoption of LED technology to today's recyclable, eco-responsible materials, we continue to redefine the design and life cycle of our illuminated designs.

Our environmental commitment continues to deepen. From 2026, solar energy will supply up to thirty percent of the production needs for our eco-friendly materials at our Apt site. Another meaningful step in our journey towards sustainable innovation.

- **35 000 RECONDITIONNED DECORATIONS** EACH YEAR
- **9 MILLION** BOTTLES GIVEN A SECOND LIFE
- **80% REDUCTION** IN ALUMINIUM USED ACROSS OUR DECORATIONS

ENERGY SAVINGS

LOW-CONSUMPTION LEDS
All our displays, along with our garlands and projectors, are fitted with ultra-low-energy LEDs, using up to ten times less energy than traditional lighting.

THE SOLAR ENERGY ALTERNATIVE
To help you tackle environmental concerns both creatively and pragmatically, some of our designs can be fitted with solar panels, making them completely self-sufficient.

MANAGEMENT OF YOUR INSTALLATIONS
Smart energy management supports a broader vision of eco-responsible urban design. To ensure the optimal control of your illuminations, we offer a range of control units and fully integrated management systems, which are detailed in the accessories section at the end of the catalogue.

ECO-FRIENDLY MATERIALS

RECYCLED ALUMINIUM
The frames and supporting structures of our designs are made from aluminium, 70% of which is recycled.

DESIGNED FOR CIRCULARITY
Our eco-responsible materials allow us to reduce the amount of aluminium used in our designs, thereby lowering our carbon footprint.

Made from GMO-free bio-based sugar cane.
Biodegradable material.

Made from recycled plastic bottles.
Recyclable material.

Made from recycled plastic.
Recyclable material.

DURABILITY & RECONDITIONED

RECONDITIONED DECORATIONS:
Reconditioned installations: we offer our clients a wide range of fully refurbished installations, promoting a conscious and responsible approach without compromising on quality or value.

CLEAN END-OF-LIFE OF DESIGNS
At Blachere, we are committed to: the repair, re-use, collection, and processing of electrical and electronic equipment. Bioprint, Recyprint, and Flexiprint products are recyclable and are reused.

CSR at the heart of OUR APPROACH

Openness and honesty. Our CSR policy is a continuation of the expertise we have acquired over the last 50 years. We have always been committed to doing our job to the highest standards. Everything we create to illuminate the world must respect our planet and those who inhabit it.

This approach is reflected every day in the actions of our teams, in France and around the world.

«The goal is important, but the path you take to reach it matters even more,» as Jean-Paul Blachère taught us.

We are committed to creating a working environment that enables each employee to achieve their full potential. We endeavour to nurture, train, and support our staff, all while offering them opportunities to progress and learn.

Parity and equity are key to our success, and we are proud to have almost as many women as men in our teams.

As for social and professional integration, we offer a host of opportunities for people with disabilities and those who have been excluded from the workforce.

Launched in 2000, the United Nations Global Compact is the world's largest corporate social responsibility initiative. We have adhered to the Compact since 2023, and the principles of human rights, international labour norms, environmental protection, and the fight against corruption in all its forms are at the heart of our strategy.

French Fab, launched in 2017, is the French industry flagship. French Fab represents companies, economic players, institutions, and industrial sites located in France that are committed to developing French industry.

The certification highlights companies committed to the circular economy. It is awarded to manufacturers who incorporate recycled plastic materials into their production processes.

A commitment to inclusivity. A French community of companies committed to an inclusive society and a sustainable world, working to support human development, create shared value, and foster inclusive, sustainable growth.

The Coq Vert community is THE network committed to energy and ecological transition. This seal reflects our commitment to putting climate issues at the heart of our strategy.

the blachere FOUNDATION

Born from a passion for contemporary art and the African continent, our corporate foundation was established in 2004 by Jean-Paul Blachère and has since become Europe's first foundation dedicated to contemporary African art.

It supports contemporary artistic creation from Africa and promotes artists from the continent through its 400 m² arts centre in Bonnieux, in the heart of the Luberon.

Our foundation hosts exhibitions and welcomes artists living in France and Africa.
It takes part in major African Biennales, including that in Dakar.

Since its creation, the Foundation has supported more than five hundred artists, both women and men, emerging and famous, offering them a gateway into the wider world of contemporary art.

fondation **Blachère**

- **22 000 VISITORS** TO THE FOUNDATION IN 2025
- **22 YEARS** ROOTED IN PROVENCE
- **512 RESIDENT ARTISTS** HOSTED

NEW COLLECTION

L'ODYSSÉE
Fantastique

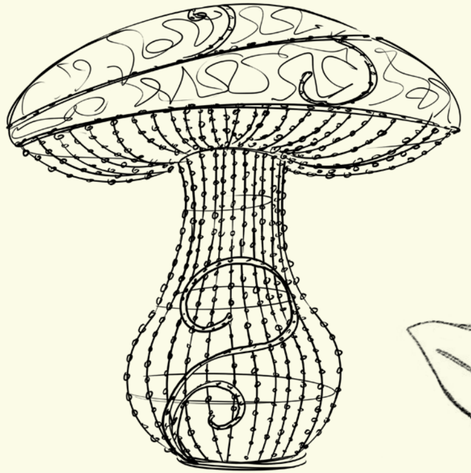

The Fantastic Odyssey draws inspiration from the world of fairy tales and enchanted forests. A universe inhabited by magical creatures: owls guarding secrets, dainty fawns, giant mushrooms... each figure evokes the magic of a hidden world that reveals itself only to those who still dare to dream. Fairy-tale escapism, halfway between nature and fantasy.

ROYAUME DES GLACES

Inspiration comes from the lands of the Far North, where snow becomes a setting and ice, a palace. Each animal embodies the fragile poetry of these frozen lands. Soft silhouettes, gentle expressions, and velvety textures inspire a tender and protective sense of wonder. Here, nature becomes a story, and every creature seems to step out of a snow globe, perfectly frozen in wintry glory, yet ready to come to life the moment they meet a dreamy gaze.

NORDIKA
as realistic as a natural one

Who doesn't love a fabulous Christmas tree? And yet, it takes between 30 and 40 years for a natural conifer to reach 12m in height. As we want to avoid deforestation halting the felling of these majestic trees, we invented NORDIKA.

Pre-illuminated with a slowglow effect, easy to assemble and store, they are perfect replicas of their natural version, both in their design and incredibly realistic appearance - as true to life as it gets.

Eco-friendly design of our Nordika product line
Our environmental approach is based on a simple principle: to save at least as much carbon as we generate. We do this by only using biocompatible materials, which we recycle at the end of their lifespan.

Optional treetop

Hyper realistic
Chistmas tree branches

Wood effect
stand available

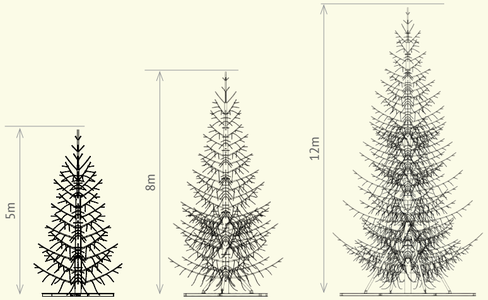

NORDIKA
the Christmas tradition

The perfect regularity of the branches, the realistic high-quality finishes and a majestic size make our conifers a festive must. You can customise your Nordika every year for a unique look: hang Christmas baubles on its branches, add a set of lights, or even set it on a wooden base.

NAME	ø	⬍	ϟ	⏏	FLASHS	LED	NBR OF ELEMENTS	REFERENCES
Sapin Nordika - PM	3,56 m	5 m	245 W	263 kg	☼	**2 976** (1 488 steady + 1 488 with slowglow effect)	46	**GX081LW-2**
Sapin Nordika - MM	4,70 m	8 m	770 W	1 112 kg	☼	**8 664** (4 332 steady + 4 332 with slowglow effect)	107	**GX082LW**
Sapin Nordika - GM	5,90 m	12 m	1 870 W	2 750 kg	☼	**21 048** (10 524 steady + 10 524 with slowglow effect)	194	**GX083LW**

CELEBRATING 10 YEARS

To mark its tenth anniversary, our Christmas tree has undergone a transformation: a redesigned branch structure for a more harmonious silhouette, a deeper green hue, and an even more realistic look. An evolution born from our constant drive to innovate, offering an even more magical, fuller, and more radiant tree than ever before.

FREE STANDING NO NEED TO SECURE WITH WIRES

The Nordika is built on a robust internal framework that ensures its stability without the need for external cables or wires for balance.

TOTALY SAFE 24V

100% secure thanks to its 24V voltage across the entire tree.

INDOOR &OUTDOOR USE

Thanks to its weather-resistant structure and durable materials, it withstands outdoor conditions perfectly while remaining elegant and safe indoors.

PVC FREE

The recyclable polyethylene branches provide a natural appearance and an eco-friendly approach. This innovative material perfectly mimics the look of real branches while being durable and environmentally friendly.

PRE-LIGHTED WITH 100% LED SLOWGLOW EFFECT

No need to install string lights anymore: the tree comes pre-decorated and ready to shine.

CAN BE TOTALLY DISMANTLED

Transport and storage are also made easier.

ARTY

The ARTY collection is inspired by the refinement and purity of the Art Deco artistic movement.
We have elegantly mixed the geometric lines of this timeless artistic style with the traditional symbols of Christmas.
Flashes, diamond shapes and streamlined curves are accented with light, enabling us to create an extremely elegant and dynamic decoration that is equally beautiful day and night in your streets.

Grace

The GRACE collection is inspired by Baroque style. Born in Italy in the 17th century, this artistic movement is characterised by its majestic ornamentation and arabesques, symbols that we have chosen to combine with more pared-back contemporary lines.
An essential element in Baroque style, the chandelier is available in several versions that you will find in these pages.

Precious

The Precious collection is inspired by the world of jewellery and fashion.

The design's lines echo those of items of jewellery: long necklaces, pendants and pearls are all refined references found in this theme.

A symbol of Christmas par excellence, the bow evokes connection, sharing and the joy of gifting, imposing its precious and timeless style.

COSY

Close your eyes and breathe in the delicious scent of cinnamon that fills the alleyways of the Christmas market.
Pine green, red and gold are the key colours in this collection, which has a warm, traditional and gourmand feel.
Lanterns of every variety are an integral part of this Cosy collection, an ode to festive winter traditions with family and friends.

Cristal

The Cristal collection brings a breath of freshness to your polar decoration.
Delicate arabesques and more decorative lines warm up this glacial world.
New snowflakes with softer designs in warm shades, mixing pure white and warm white, make up this range inspired by the nomadic peoples of the Far North.

SOLAR RANGE

varied and adaptable decorations work with solar energy

Thanks to our new solar-powered rechargeable battery, you can combine lighting with energy efficiency.

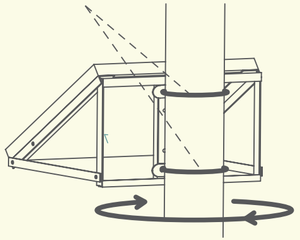

Once your decor is in place, position the solar box on top of it facing the right way, set your switch-on and switch-off times and enjoy your lighted decorations.

Technical details:

- 8 to 10 hours of recharging with optimal sunlight for 7 hours of lighting.
- your lights can be programmed to operate for 5, 6 or 7 hours.

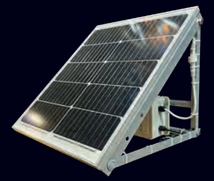

PIXSOL2

20W pannel power
7,2W power output

When you set it up, make sure it is facing the right way to get the most sun during the day. These decorations are equipped only with 24V LED string lights.

100% autonomus

PLAY MAGIC

Play in augmented reality!

Allowing audiences to do things like take a photo with Father Christmas or play with Charlie the Unicorn, our augmented reality apps add virtual characters into the real world, leaving the public laughing and amazed.

Children and adults can easily take part in the fun using a smartphone enjoying an unforgettable experience that transforms reality into a unique performance.

How does it work?

For the public, the idea is simple: when users approach the Play Magic banner, the app they have pre-installed on their phone automatically unlocks to give them access to the games. They can then share the experience on their social media pages. The public app features your branding and a link to your website or social media.

For the city: the games app has a subscription model valid while the illuminations are up, with games updated each year.
Apart from this, all you need to do is install the banner near the illuminations to tell the public they can enjoy a free game on their phone in the location. There is no need for any connection. The app's success also depends on you advertising it on displays in your town/city and on your social media pages.
We can assist you in setting up your communications (Réf. ARCOM below).

Reference	Description
AR001	3 games pack (chosen from the 7 existing games) + 1 Totem
AR002	5 games pack (chosen from the 7 existing games) + 1 Totem

2D & 3D LETTER

Stand Out! Showcase your identity with our XXL Lettering

Place them wherever you like—on roundabouts, in front of your town hall, or near any iconic landmark in your community.

We offer various options for volume, size, color, and weighted base:

Our 2D letters come in Recyprint gold and white, made from recycled plastic bottles and fully recyclable. They are available in heights of 1.4m or 2m. The lightweight, discreet aluminum frame is crafted from recycled material and designed to hold your weighted base.

This year, we're introducing 3D letters with added depth. Covered in Flexiprint—our new flexible, recyclable material made from recycled plastic—these letters feature white front and back faces with gold-colored edges.

Two sizes are available:

1.8m with a depth of 60cm
1.4m with a depth of 40cm
These 3D letters also come with a black lacquered base that serves as a weighted support, offering a turnkey, ready-to-install lettering solution.

All our lettering includes warm white spotlights, so your name will shine at nightfall.

DRESSING CITY BARRIERS & PLANTERS

2D ground decor

Adorn your urban furniture with colourful environmentally-friendly decorations!

Marine, floral or butterfly theme — customise the decoration of your town barriers or planters.
You can choose the background colour of the decoration as well as the motif which will be applied on top, everything will be tailor-made in Bioprint, our biodegradable, recyclable material.

Customised project, contact us.

TREE CORSET

3D ground decor

Embellish your tree trunks!

Our tree corsets will adorn and light up your trees while protecting them and ensuring optimal hold.
Available in bright or passive versions and in a wide array of colours, there are unlimited combinations to liven up your urban areas or green spaces with style and creativity.

Customised project, contact us.

BLACHERE
LEDs

The different types of Blachere© LEDs :

LED +
An exclusive 100% Blachere© innovation

SPARKLIGHT EUROPA LED
A unique, instantly recognizable star shape.

LED RGBWW/RGB
A special capsule for better color diffusion.

LED CLASSIQUE
A robust and stable encapsulated LED with an inverted interior cone.

LED SMD
The ultimate electrical component, manufactured by an automatic machine.

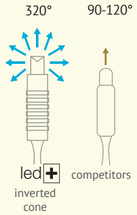

LED + :
By approaching innovation through usage, our R&D department has developed the brand new Led+ in fixed and slow flash versions to make your projects sparkle! The result of a long-standing collaboration with Nichia®, the world leader in LEDs, we are delighted to offer you an exclusive new range:

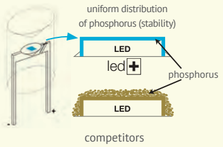

brighter, more robust, longer lifespan, more consistent colour quality

The new technical features of Led+ are:

> **Optimised and patented design** to enhance the luminous efficiency of our solutions (Reverse conical principle).
> **Maximised heat dissipation** for increased service life.
> **Uniform phosphorus deposition** for uniform light output.
> **2-year guarantee.**
> **Optimal protection rating: IP66/IP69.**
> **Octoplus 230V connector by Blachere IP67.**
> **Optimized energy performance: a 15% reduction in consumption.**

SPARKLIGHT® EUROPA
by Blachere Illumination

Ten years after revolutionising our industry with large-format 3D printing, we have met a new challenge: manufacturing competitive, high-quality made in France string light.

We are proud to present SPARKLIGHT ® EUROPA, designed and manufactured in our workshops in Provence, France.

SPARKLIGHT ® EUROPA is the culmination of several years' Research and Development and investment, combined with unique know-how developed and kept alive on French soil for more than half a century, which has earned the company the EPV Living Heritage Company Label, awarded several years ago.

The launch of our French string lights embodies our continuously renewed commitment to responsible innovation, combining industrial expertise, creativity and energy efficiency to create the magic of Christmas and meet the concrete needs of municipalities.

FRENCH KNOW-HOW
SPARKLIGHT® EUROPA is produced in our workshops in Apt, where Blachere was founded over 50 years ago. Our unique know-how is a perfect balance between traditional craftsmanship and industrial efficiency.

LOCAL ECONOMY
Supporting European production reinforces our industrial autonomy and strengthens employment in Europe. Local production is a reliable alternative to import disruptions.

SHORT SUPPLY CHAIN
All stages of production and packaging take place in our workshops in Apt, France, significantly reducing intercontinental transport.

PRODUCT INFO

BLACHERE ILLUMINATION INNOVATION
Our new SPARKLIGHT® EUROPA string light is produced and packaged in France. Equipped with energy-efficient LEDs - like all our string lights- SPARKLIGHT® EUROPA consumes only 3W for 80 LEDs, making it the most eco-friendly string light in our range. Our new string light is a robust innovation, designed for outdoor and professional use only. Compatible with the Octopus system by Blachere, it can be configured into a stunning tree curtain.

STRING LIGHTS iLED ColorTech by Blachere®

RGBWW - multicoloured

RGBWW technology completely reinvented!

Over the last 2 years, we have developed a new RGBWW LED, **the brightest on the market, which can be controlled pixel by pixel** using a combination of software and "open command" animations (DMX compatible).

Four high-quality LEDs in a single capsule for a unique light output, with warm white 2300/2500K.

With incredible luminosity and a range of unique colours, our RGBWW string lights opens up a host of possibilities for illuminated decorations (string lights configuration or curtain configuration, for trees and facades).

This technology requires a personalised analysis tailored to your project

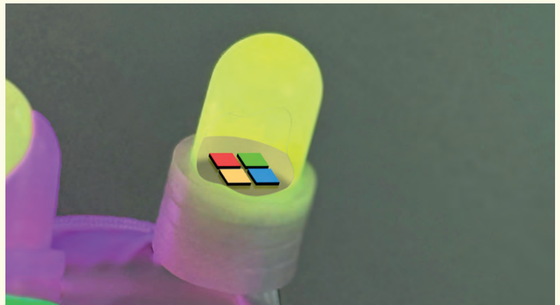

Ask for an analysis!

TREE CONFIGURATION «CHAMPAGNE GLASS»

Transform an avenue or a square into a unique, multicoloured, and animated spectacle.
By equipping your trees with iLED ColorTech RGBWW, you become the conductor of this show, creating your own animations according to your preferences and schedule (hourly, daily, weekly, or even monthly, for example).

CONFIGURATION «TENT»

Create a multicoloured and animated tent above a square or roundabout. An aerial installation that creates a magical starry sky, fully customisable to your preferences.

CONFIGURATION «STREET CEILING»

Transform your main avenue into a unique gathering place and energize your city center by creating a multicolored light show.

The endless animation possibilities will allow you to create a spectacle (for example, every half hour) and attract a crowd that loves light events!
A great way to boost your local economy during the festive season…

«FACADES» INSTALLATION

Why not create your own giant light screen on the façade of your town hall?
Each evening, attract a crowd of spectators eager to enjoy the light show, specially designed for the occasion, to complement your Christmas market or city festivities!

Low power consumption bulb - Note : use the appropriate power (16mA i.e 3,68VA) to calculate the rating of your network (cable section area, circuit breaker, power required etc.). Use 0,5W per bulb to calculate the power consumption. In outdoor use, must be mounted on garland with B22 sockets minimum IPX4 with waterproof seal fitted.

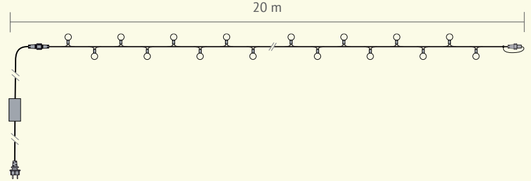

PRODUCT DETAILS

The LDL series is a classic of Blachere lighting. A registered model, the particular arrangement of the LEDs in the bulb globe gives a «filament effect» similar to the incandescent bulbs of yesteryear. The polycarbonate globe guarantees an increased solidity (IK06). The LDLFL-B22 recreates the effect of a flame, regardless of the mounting direction. *F722-L / F732-L.* A historical product that is easy to use on a B22 lampholder. Produces 1 flash approximately every 3 seconds.

CHERRYLIGHT® STRING LIGHT
multicoloured

PVC · IP55 · 24V · incl.

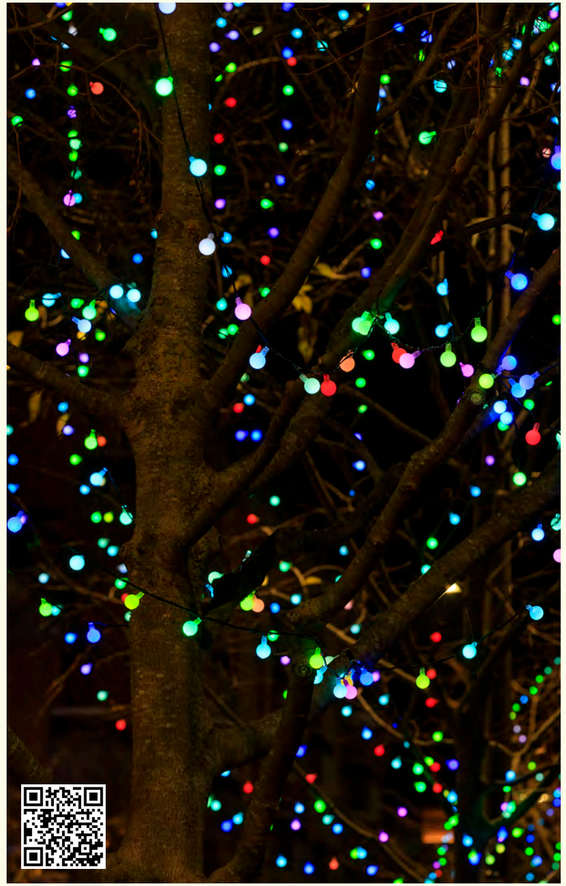

STATICS

	LED	FLASH			
20 m	160		5,6	3	FL555C

PRODUCT DETAILS

New for 2026, our stalactite is a combination of a braid and a classic stalactite, creating a new decorative light festoon. Connectable end-to-end, it can illuminate large lengths either across streets or suspended. An alternative to our TSL braids. There is also the option of inserting small decorative elements using our Octoplus system.

ACCESSORIES
& technical solutions

OUR STEERING SOLUTIONS

It's time to step up the smart city movement to save more energy.

Eco-designed equipment that is sustainable and smart energy management are part of any global eco-friendly urban policy. Blachere Illumination is committed to working alongside cities and developing innovative solutions to protect our planet and our future.

With our lighting management systems, you can remotely manage lighting with a single click. Whether it's with **our range of timer boxes or our MASTER+SAVER global control system on the next page.**

This makes it easier for the city to manage its electricity resources in line with its ecological and sustainable development aspirations.

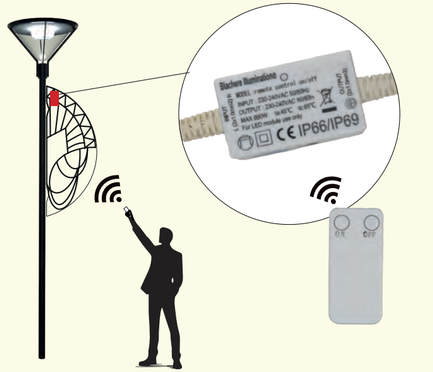

ON/OFF BOX
WITH REMOTE CONTROL

When you fit your set with this remote control switch, you can install and connect your set to the public lighting system in advance and switch it on manually with the remote control on the day of the lighting show, without having to interact with the box installed on lighting set.

Box ref: **TERUP**
Remote control ref: **TERUP-C** (can control multiple TERUP boxes)

- SIMPLE **ON/OFF** CONTROL
- WORK **VIA REMOTE CONTROL**

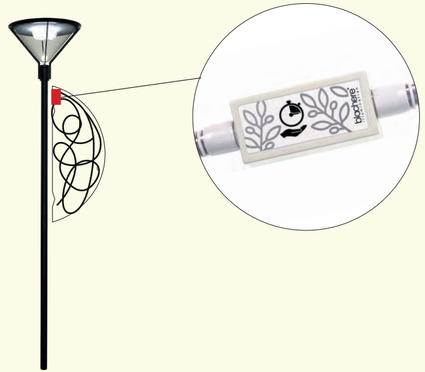

TEMPO 2 BOX
UNIVERSAL & 7-HR PROGRAMMABLE

When you fit your set with the TEMPO2 box, you can disconnect it from the public lighting network. Sets are switched off automatically after 7 hours, from the moment the street lighting switched on. By connecting a TERUP ON/OFF box upstream of this box, you can trigger the timer using the remote control.

Compatible with Octoplus and**/or any other decor.**
Box ref : **TEMPO2**

- AUTOMATIC **7-HOUR** TIME DELAY
- CONTROL IS **ON THE BOX**

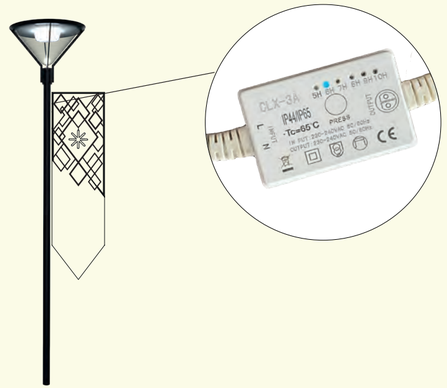

TEMPO+ BOX
PROGRAMMABLE FROM 5 TO 10 HRS

When you fit your set with the TEMPO+ box, you can disconnect it from the public lighting network and can adjust the lighting times you want and programme the lights to go out. A long press means you can select 5, 6, 7, 8, 9 or 10 hours of illumination followed by automatic switchoff. By connecting a TERUP ON/OFF box upstream of this box, you can trigger the timer with the remote control. Octoplus compatible.

Box ref : **TEMPO+**

- TIME DELAY SELECTABLE **BETWEEN 5 AND 10 HOURS**
- CONTROL IS **ON THE BOX**

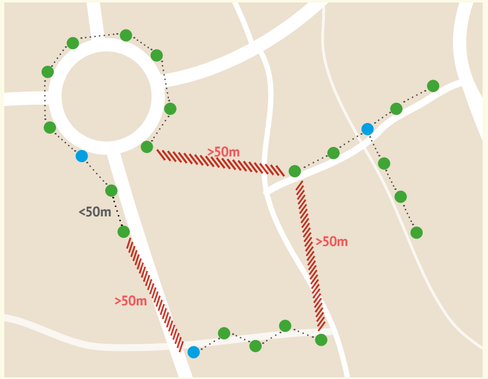

MASTER+SAVER SYSTEM

Fit your light displays with SAVER boxes. One of the lighting sets will be «group leader» and will be equipped with a MASTER box. The MASTER box can be programmed with the switch-on times/days and will communicate the same information to all the SAVERS via Bluetooth.

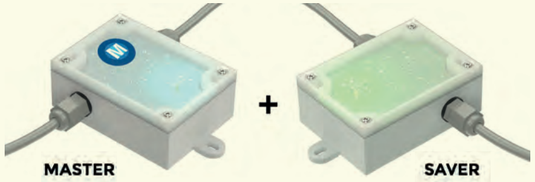

The distance between SAVER and MASTER must not exceed 50m.

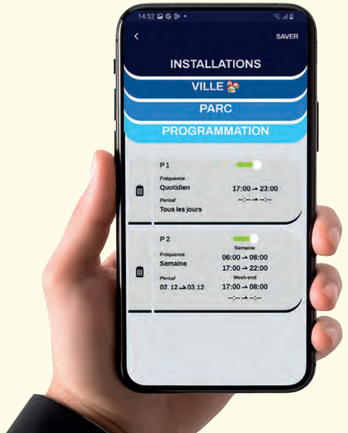

If two sets are more than 50m apart, you will need to make a new group with a new MASTER box. You also need to be close to the MASTER, with your phone in your hand and the application open, to be able to control your sets.

Lighting sets can be pre-programmed in our workshops or programmed by the customer themselves using the dedicated mobile application.

- SUPER EASY CONTROL VIA **MOBILE** APPLICATION
- CREATION OF **SET GROUPS**
- PROGRAMMING OF **SWITCH-ON DAYS AND TIMES**
- MANAGEMENT OF **SWITCH-OFF TIMES FOR ENERGY SAVINGS**
- **SECURE** W - **DATA PROTECTION**

OCTOPLUS by Blachere®
exclusive

Octoplus is the connector that enables fast and multiple connection between our decorations and most of our range of string lights. Each item that is marked "Octoplus" can therefore be connected to another "Octoplus" item. This means the combination of items is infinite just by simplifying the electrical connections.

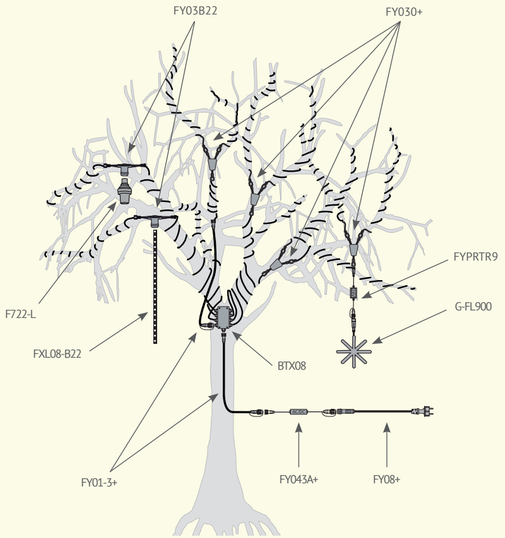

Connector 230V Octoplus by Blachere®
Protection rating IP67, according the European standard EN60529 on the degree of protection provided by enclosures.

Connector 24V Octoplus by Blachere®
Protection rating IP67, according the European standard EN60529 on the degree of protection provided by enclosures.

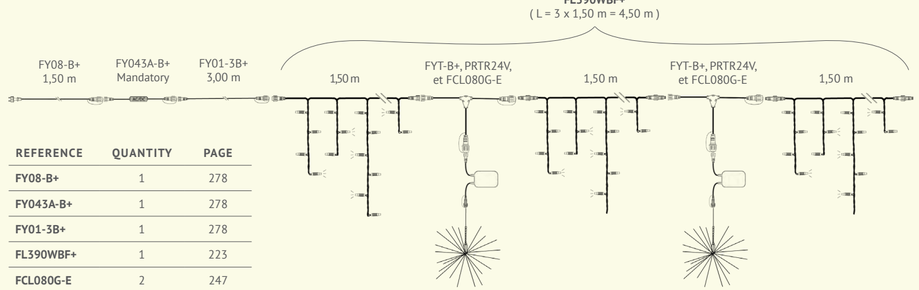

Special connector RGBWW 12V
Protection rating IP67, according the European standard EN60529 on the degree of protection provided by enclosures.

SOLAR ACCESSORIES

A new roundabout to decorate but no power supply?

Or looking to illuminate a street on your own with zero carbon emissions?

Choose our solar solutions.

Discreet panels, with an integrated autonomous and programmable system (switch-on and switch-off times).

Adapted light decorations, 24V string lights, and more. We offer you **a complete range that is 100% self-powered.**

All you need is sunshine!

Consult our advisory teams for a personalised analysis!

SOLAR KIT
SELF-POWERED

KITSOL
- Kit containing a solar panel with high-performance monocrystallinecells.
- Gel batteries for 2400 cycles with discharge
- Power regulator and discharge protection
- 24V or 230V output easily switched by rotary selector
- Can be fixed to the floor

PRODUCT DETAILS

- 50% battery consumption after 12 hours
- Low-power prevents battery damage.
- Easy to move thanks to flexible rubber wheels with high abrasion resistance
- Maintenance-free and easy to install

SOLAR KIT
POLE

PIXSOL2
- 20W panel power
- 7.2W power output
- DAILY PROGRAMMER: selection of the days and times lighting set is switched on
- 8 to 10 hours of sunshine required for 7 hours of lighting set operation

COMPATIBLE PRODUCTS

- String lights 1 x FL502...
- String lights 1 x 501CW
- String lights 1 x 501W
- String lights 1 x G-FL920LU
- Sphere 1 x G-FL920M
- Bulb 1 x G-FL930BB
- Kit 1 x PRJA et PRJA-W

SOLAR KIT
LED PROJECTOR

PIXSOL3
- 20W panel power
- 4W power output
- DAILY PROGRAMMER: selection of the days and times lighting set is switched on
- 8 to 10 hours of sunshine required for 7 hours of lighting set operation

COMPATIBLE REFERENCES

- PRJA or PRJA-W

BALLASTING
illuminations in flexiprint

Dress up your blocks as pretty gifts! Use our magical gifts to hide the concrete blocks in your decorations!

Depending on the features of your decoration, put together your own ballast kit and wrap your gift (size & colour).

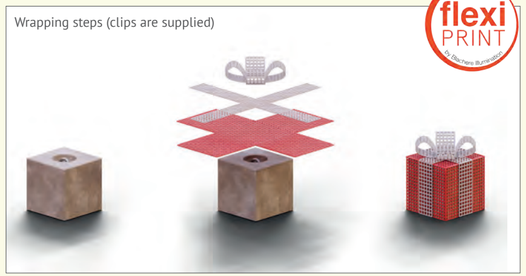

KPL0020 - Concrete ballast block
Set of 20kg suitable for flexiprint material

KPL0040 - Concrete ballast block
Set of 40kg suitable for flexiprint material

KPL0100B - Concrete ballast block
Set of 100kg suitable for flexiprint material

Example : KPLO100B + KFLEXCA1

1. Choose your block :

REFERENCES	DESIGNATION	DIMENSIONS
KPL0020	Concrete block - 20kg	0,20 x 0,20 x 0,20 m
KPL0040	Concrete block - 40kg	0,30 x 0,30 x 0,20 m
KPL0100B	Concrete block - 100kg	0,37 x 0,37 x 0,37 m

2. Choose your cover :

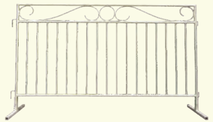

REFERENCES	DESIGNATION	DIMENSIONS	COLOURS
KFLEXCA2	Block cover - PM	0,20 x 0,20 x 0,20 m	BLUE / white
KFLEXCA5	Block cover - MM	0,30 x 0,30 x 0,20 m	BLUE / white
KFLEXCA8	Block cover - GM	0,37 x 0,37 x 0,37 m	BLUE / white
KFLEXCA1	Block cover - PM	0,20 x 0,20 x 0,20 m	RED / white
KFLEXCA4	Block cover - MM	0,30 x 0,30 x 0,20 m	RED / white
KFLEXCA7	Block cover - GM	0,37 x 0,37 x 0,37 m	RED / white
KFLEXCA3	Block cover - PM	0,20 x 0,20 x 0,20 m	GREEN / white
KFLEXCA6	Block cover - MM	0,30 x 0,30 x 0,20 m	GREEN / white
KFLEXCA9	Block cover - GM	0,37 x 0,37 x 0,37 m	GREEN / white
