OUR STORY

The story began in 1973, in the city of Apt in the heart of Provence.
When Jean-Paul Blachère illuminated his first village, the smiling faces of the locals were confirmation that light has a unique magical power. He transformed his experiment into a career, encompassing the passion and savoir-faire that he shares lovingly and with great respect for tradition.

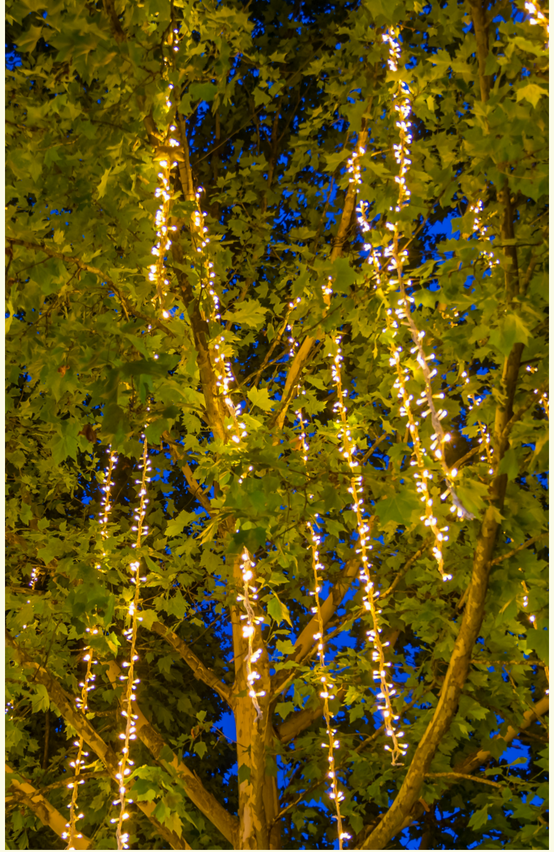
Since then, the company has grown significantly and provides its designs to more than 80 countries, all thanks to a team of 600 employees in France and 27 subsidiaries around the globe… We're proud to be able to say that we provide lighting for 70% of French towns with more than 5,000 inhabitants and for more than 1,000 towns and 800 shopping centres worldwide.

Nevertheless, it is with the same level of passion as on the very first day that we undertake our projects.
Our strength as a company comes from the experience we have amassed through sharing with, listening to, and providing creative solutions for our clients.

With illuminations in France and the wider world, requirements are rather diverse. So, it's thanks to the adaptability and professionalism of our teams on the ground that we are able to respond to the needs of each city and the culture of each country.

Wherever we are in the world, our mission is to ignite emotions with our illuminations…

- **27 SUBSIDIARIES**
- **1000 CITIES ILLUMINATED IN** OVER 80 COUNTRIES
- **800 SHOPPING CENTRES** WORLDWIDE



BRINGING YOUR SURROUNDINGS TO LIFE

We specialise in the art of transforming urban spaces with colourful, innovative, and eco-friendly decorations all year round.

While we've been experts in the festive period since our very beginnings, today we provide a range of decorations that transcend seasons, designed to elegantly bring our surroundings to life in an eco-friendly way while uniting communities for cultural or sporting events.

In addition to our catalogue range, we also create custom designs inspired by your regional culture and heritage on request.

OUR **CATALOGUE RANGE**
CAN BE MADE ACCORDING TO **YOUR COLOUR CHOICE AND YOUR GRAPHICS**

BLACHERE'S KNOW-HOW

Creation is at our core: everything starts off as a draft, a sketch, a spark of imagination, a dream... which our expert designers then transform into an incandescent reality.
Much more than simply manufacturers, we are passionate imagineers with a sole mission: to fill the world with wonder by telling awe-inspiring stories through magical and innovative scenes and lighting displays.
We draw inspiration from the world around us; everything has the potential to spark emotion....

Creativity and savoir-faire go hand in hand. Always one step ahead and standing out from the crowd.

Our innovations enable us to strike the right balance between age-old expertise and industrialisation. From intricate metalwork to meticulous wiring, over 7,000 bespoke decorations take shape in our workshops every year; it's a veritable Haute Couture fashion house of the lighting industry.

Meanwhile, the catalogue items in our summer and winter 'ready-to-wear' collections boast eco-friendly materials and are produced by our fleet of 12 industrial-sized robotic printers in France and abroad.

- **12 INDUSTRIAL-SIZED ROBOTIC PRINTERS**
- **5 PRODUCTION SITES**
- **400 PERSONNEL** IN OUR WORKSHOPS INTERNATIONALLY

OUR MATERIALS ECO-FRIENDLY

Innovation has always been at our core. Founded in 1973 in the midst of the oil crisis, the company has never ceased to innovate in order to respond both creatively and rationally to new ecological challenges.
We strive to continually evolve in the construction of our displays to make them more sustainable and to minimise their impact on the environment.
More than 25,000 displays are renovated and reconditioned each year so that they can be leased again or sold on.
We are also committed to ensuring that all our products have a clean end-of-life.

RECYCLED ALUMINIUM

The frames and supporting structures of our designs are made from aluminium, 70% of which is recycled.

MATERIALS INJECTED INTO OUR 3D PRINTERS

Made from non-GMO bio-based sugar cane. Biodegradable material.

Made from recycled plastic bottles. Recyclable material.

Made from recycled plastic. Recyclable material.

OUR AVAILABLE COLOURS

LOW CONSUMPTION LEDS

The light displays in our Seasons & Cities range, as well as all the products in the garlands and spotlights section, are equipped with ultra-low-consumption LEDs.
Our LEDs consume 10 times less energy than traditional lighting.

THE ALTERNATIVE SOLAR POWER

To help you tackle environmental concerns both creatively and pragmatically, some of our designs can be fitted with solar panels, making them completely self-sufficient.

CLEAN END-OF-LIFE OF DESIGNS

At Blachere, we are committed to:
- The repair, re-use, and recycling of electrical and electronic equipment.
- The collection and treatment of electrical and electronic household waste.

Bioprint, Recyprint, and Flexiprint products are recycled and reused internally or locally.

ecosystem recylum

OUR CSR COMMITMENTS & CERTIFICATIONS

Open and honest.

Our CSR policy is a continuation of the expertise we have acquired over the last 50 years.

Everything we create to illuminate the world must respect our planet and those who inhabit it. We are committed to creating a working environment that enables each employee to achieve their full potential.

We endeavour to nurture, train, and support our staff so that they are eager to stay with us, all while offering them opportunities to progress and learn.

Parity and equity are key to our success, and we are proud to have almost as many women as men in our teams.

As for social and professional integration, we offer a host of opportunities for people with disabilities and those who may have been excluded from the workforce.

End goals are essential, but how you achieve them is even more so!

Come and see for yourself!

UN GLOBAL COMPACT

Launched in 2000,the United Nations Global Compact is the world's largest corporate social responsibility initiative.

We have been a member of the Pact since 2023, and the principles of human rights, international labour norms, environmental protection, and the fight against corruption in all its forms are at the heart of our strategy.

2024 MORE
MOBILISÉS POUR RECYCLER

The certification recognises companies committed to the circular economy. It is awarded to manufacturers who incorporate recycled plastic materials in their production processes.

BLACHERE FONDATION

Born of a passion for contemporary art and the African continent, our corporate foundation was established in 2004 by Jean-Paul Blachère.

It supports contemporary creation in Africa and the promotion of artists from the continent.

In the arts centre in the heart of the Luberon region, the foundation hosts exhibitions and welcomes artists living in France and Africa. It takes part in major African Biennales, including that in Dakar.

Since its inception, there have been more than 500 artists, both male and female, anonymous and well-known, who have taken advantage of the doors the Foundation opens into the vast world of contemporary art.

FUNNY ANIMAL CONTAINERS

Our funny animals join you on your recycling journey!

Educating young people about recycling is a major challenge, and we have met it with creativity and humor.

We have transformed this vital initiative into a fun and joyful collective act with animal-shaped recycling containers. Placed in city centers or along beaches, whales, fish, and turtles house recycling bins.

The collected plastic bottles are retrieved by specialized organizations, from which we source the raw material. This is then fed into our printers to produce structures made from Recyprint, our material crafted from PET (polyethylene terephthalate) sourced from the food industry.

COMPATIBLE LARGE-FORMAT CONTAINER

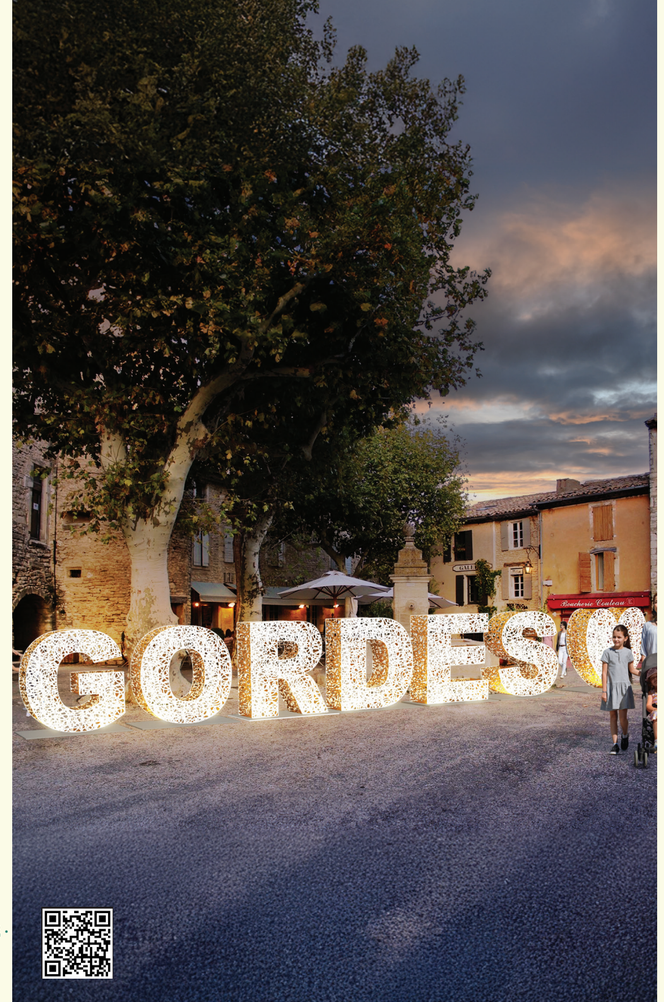
SUGGESTION

To decorate a small container, this model is available upon request.
Speak to your account manager for more information.



2D & 3D LETTER

Stand Out! Showcase your identity with our XXL Lettering

Place them wherever you like—on roundabouts, in front of your town hall, or near any iconic landmark in your community.

We offer various options for volume, size, color, and weighted base:

Our 2D letters come in Recyprint gold and white, made from recycled plastic bottles and fully recyclable. They are available in heights of 1.4m or 2m. The lightweight, discreet aluminum frame is crafted from recycled material and designed to hold your weighted base.

This year, we're introducing 3D letters with added depth. Covered in Flexiprint—our new flexible, recyclable material made from recycled plastic—these letters feature white front and back faces with gold-colored edges.

Two sizes are available:

1.8m with a depth of 60cm
1.4m with a depth of 40cm
These 3D letters also come with a black lacquered base that serves as a weighted support, offering a turnkey, ready-to-install lettering solution.

All our lettering includes warm white spotlights, so your name will shine at nightfall.

DRESSING CITY BARRIERS & PLANTERS
2D ground decor

Adorn your urban furniture with colourful environmentally-friendly decorations!

Marine, floral or butterfly theme – customise the decoration of your town barriers or planters.
You can choose the background colour of the decoration as well as the motif which will be applied on top, everything will be tailor-made in Bioprint, our biodegradable, recyclable material.

Customised project, contact us.

TREE CORSET
3D ground decor

Embellish your tree trunks!

Our tree corsets will adorn and light up your trees while protecting them and ensuring optimal hold.
Available in bright or passive versions and in a wide array of colours, there are unlimited combinations to liven up your urban areas or green spaces with style and creativity.

Customised project, contact us.

GOING PAPER-FREE

Here at Blachere, above and beyond just being deeply concerned about sustainable development and our carbon footprint, we are constantly looking for ways to increase the efficiency of the tools we use, which has naturally led us towards going paper-free.
Though the «zero paper» business is somewhat of a Utopian ideal, going paper-free considerably reduces the amount of printouts we produce and, as a consequence, our impact on the environment. The paper tools we do continue to use are printed on paper form sustainably managed forests at our «Imprim'vert» accredited printers.

QR Code in our catalogue gives you access to multiple additional media: videos of our decorations and installations, how they look in the daytime, work in progress photos and technical information about the products.
